OFFICIAL RULEBOOK - 2026

KYNEX

SUMO SHOWDOWN

26TH
SEP
2026

A test of push, poise and power. two bots enter the ring - only one holds ground. read every rule before you build.

KYNEX

BEFORE YOU REGISTER TEAM & ELIGIBILITY

1

ROBOT

PER TEAM

4

MEMBERS

MAX TEAM SIZE

2

MEMBERS

ALLOWED AT DOHYO
- SIDE

TEAM COMPOSITION

- A team may have a **maximum of 4 members** on its roster, and may field **one bot only**.
- During a match, only **2 team members** are permitted near the Dohyo (the arena) - the rest must remain in the designated team / spectator area.
- The bot must be built so that **only one person** operates it at any given time.
- Any of the 4 registered members may act as pilot, but only one may control the bot during a given match.

ELIGIBILITY

- **All undergraduate students** are eligible to participate.
- Participants must carry a **valid institutional ID card** at all times during the event.
- Every bot must clear inspection before it is allowed to compete.

CODE OF CONDUCT

- Abusive language, expletives, or unsportsmanlike conduct towards opponents, officials, or spectators will **not be tolerated** - violations lead to point deductions and can escalate to disqualification.
- All participants are expected to remain professional, respectful, and safely-conscious throughout the event.
- In the event of any dispute, the decision of the event officials is **final and binding**.
- Organizers reserve the right to amend these rules as required; any changes will be communicated to registered teams before the event.

MM X 300 MM
LENGTH X BREADTH

300

MM
MAX HEIGHT

5

KG
MAX WEIGHT

ZERO TOLERANCE

No tolerance is permitted on either dimension or weight limits. Bots exceeding **300mm x 300mm x 300mm** or **5kg** at inspection - inclusive of tyres, weapons, and attachments - will not be allowed to compete

CONTROL & POWER

- Bots must be manually controlled at all times — autonomous or semi-autonomous operation is not permitted.
- Both wired and wireless control mechanisms are allowed.
- Wired bots must use a control tether of at least 3 metres, kept slack throughout the match.
- The remote / controller dimensions are excluded from the bot's size limit.
- All batteries must be carried on-board the bot — no external power supply may be connected during a match.

WEAPONS PERMITTED

- Attached mechanical weapons are allowed, provided the bot with weapon fitted still fits within the size limit.
- Pushing, grabbing, and flipping the opponent bot is fair play, as long as it does not cause permanent damage.

KYNEX

ZERO TOLERANCE WEAPONS & SAFETY

X

Flamethrowers

X

Tasers / shock
devices

X

Interchangeable
Weaponry

X

Mace / Chains

X

Projectile Weapons

X

Liquid-based Weapons
/ Flamethrower

Liquid-based weapons include water, oil, or any form of chemical spray — these are strictly prohibited in every configuration, regardless of intended use.

PERMANENT DAMAGE POLICY

- Causing **permanent damage** to an opponent's bot results in **immediate disqualification** of the offending team.(intentionally)
- The disqualified team will be held liable to **bear the cost of repair** for the damage caused to the opponent's bot.
- Any damage caused to the arena will invite **serious disciplinary measures**, including potential disqualification — repeated or intentional damage will not be tolerated. It will be upon the official's whether the damage is accidental or intentional.

BOTTOM LINE

- The arena and every competing bot must leave the ring intact. Fail an inspection, break a rule, or damage equipment — and you're out.

KYNEX

HOW A MATCH PLAYS OUT MATCH STRUCTURE

◆ FORMAT

Every match is a series of rounds fought back-to-back between two bots. Each match runs across 4 timed rounds, with a 5th round triggered only if the score is tied after Round 4.

ROUND 1

1 : 15

min : sec

ROUND 2

1 : 00

min : sec

ROUND 3

1 : 00

min : sec

ROUND 4

0 : 45

min : sec

ROUND 5

0 : 30

Tiebreaker only

◆ TECHNICAL TIMEOUT

- Each team is entitled to one technical timeout of 3 minutes per match.
- Taking the timeout is entirely optional — a team may choose not to use it at all.
- The timeout may be called at any point during the match, at the team's discretion.
- Once used, it will not be given again for the remainder of that match.
- The bot must resume play in the same condition it was in before the timeout — no battery swaps or repairs are permitted during this break.

KYNEX

THE RING ARENA & SCORING

ARENA LAYOUT - THE DOHYO

The Dohyo consists of a wooden surface with three concentric scoring zones — centre, middle, and outer — and fits, boundary included, within a 7ft × 7ft square footprint. Push your opponent's bot out entirely, or hold the higher-scoring zone when time runs out.

POINT STRUCTURE

ZONE	POINTS
Outer Zone	25
Middle Zone	50
Centre Zone	100
Push-Out (entire opponent bot)	200

WAYS TO WIN A ROUND

- Ring-out: Push the opponent's bot completely out of the Dohyo for an outright 200-point round win.
- Zone score: If neither bot is pushed out by the end of the round, each bot is awarded points based on the zone it occupies at time-up, using the point structure above.

ZONE RULE

- A bot is scored in whichever zone more than half of it occupies.
- If a bot is split exactly 50–50 between two zones, the outer zone is used for scoring.

ROUND WINNER & MATCH WINNER

The bot with the higher score at the end of a round wins that round. The team accumulating the most points across all rounds is declared the winner of the match.

KYNEX

ON THE CLOCK GAMEPLAY FLOW

◆ GAME FLOW

- Every round begins with a 3-second countdown followed by a whistle. Moving before the whistle restarts the round and earns the offending team a warning — a third violation results in disqualification.
- Once play begins, both bots compete to push the other out of the ring or hold the strongest position.
- If a bot is pushed out — or exits the arena on its own — the round ends immediately in favour of the bot still inside.
- If neither bot is forced out, the round is scored on final ring position once time expires.
- Moving your bot after the final whistle but before scores are confirmed results in a point penalty for that team.

VIOLATION

- Moving before the round-start whistle
- Moving after the round-end whistle, before scoring
- Exceeding the 3-minute technical timeout
- Causing arena damage
- Causing permanent damage to opponent bot

CONSEQUENCE

- Warning — round restarted; 3rd offence = disqualification
- Point penalty applied to the offending team
- Points deducted for every 5 seconds over the limit
- Up to 3 warnings, then disqualification on repeat offence
- Immediate disqualification + liable for repair cost

26TH SEP

FINAL REMINDERS

- Arrive early for inspection — bots that fail size, weight, or weapon checks will not be permitted to compete.
- Be punctual — teams arriving more than 10 minutes late face serious action, with all final decisions left to event officials.
- Keep your battery pack accessible; it may need to be detached and presented at inspection.
- Review every rule in this document before your final build — decisions made by event officials on match day are final.

Note: Organizers reserve the right to revise or clarify these rules ahead of the event. Any changes will be communicated to all registered teams before match day.
